

# NEW FEATURE

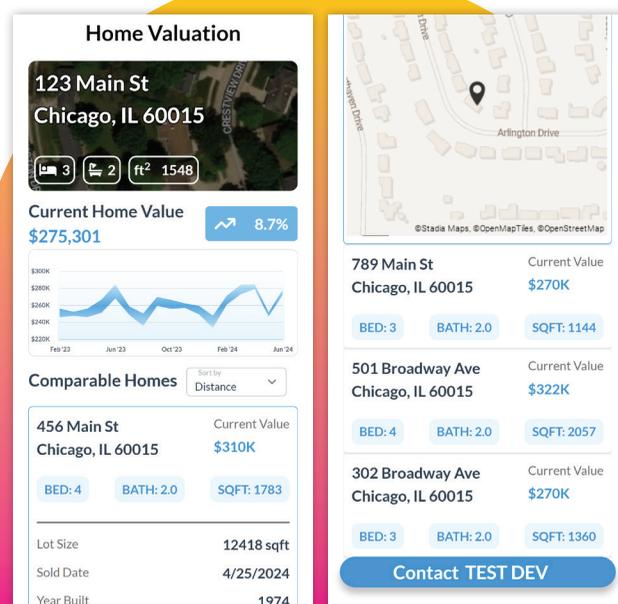

# Home Valuation

**Home Valuation** offers a valuable service to the end recipient, giving them their home's current valuation, along with historical valuations extending back up to two years in the past.

## Key Features:

- **Property Information:** The target address will be displayed over a satellite image of the property along with a count of bedrooms, bathrooms, and square footage.
- **Valuation Graph:** The current property value is displayed along the top of the graph, and the historical points are plotted below, which also shows the % change among the three historical points.
- **Comparable Homes:** Homeowners can see comparable homes within a 5 mile radius and these can be sorted by Distance, Value, Sold Date, Square Feet, and Bedrooms.
- **Contact Form:** The recipient is prompted to enter their First Name, Last Name, Email address, and Phone number, which will be included in the notification email that the user will receive.
- **Lead Analytics Dashboard:** Any time the recipient scans the Home Valuation QR code or submits a contact form, this newly-captured interaction is displayed in the user's Lead Analytics Dashboard.

**Contact Client Services via chat to learn more!**
