Each supplier independently owned and operated.

HELPING YOU GET TO SOLD SINCE 1950

It was 1950 when C.W. "Mike" Lowen began to build a company around his passion for hand-painting quality signs and graphics. In the six decades since, Lowen Corporation has built a reputation of dependability, quality of the highest standard, and superior value.

Today Lowen Corporation is comprised of three divisions occupying over 325,000 square feet of manufacturing and operational space. Lowen is a leader in the signage and graphic industry with one of the largest wide and large format digital and screen-print operations in the nation.

LOWEN CORPORATION HAS BUILT A REPUTATION FOR DEPENDABILITY, QUALITY OF THE HIGHEST STANDARD, AND SUPERIOR VALUE.

Our nearly 400 employees average over 10 years of experience and have a passion for exceeding our customers' expectations. Still family owned and managed, we are proud of our legacy and invite you to experience the Lowen difference.

CUSTOMER SERVICE

Customer Service is something we truly pride ourselves on. There is always a helpful, knowledgeable Customer Service Representative ready to walk your agents through the customization process. Lowen also has Sales Representatives across the U.S. willing to form a relationship with your brand and be there with suggestions when you need them.

97%

success rate with the
3 DAY PRODUCTION PROGRAM
in the first implemented year.

OUR 3 DAY PRODUCTION PROGRAM

In 2016 we set out to accelerate the rate at which our customers receive their orders. We advanced our art systems, invested in the newest printing technology, and expanded our work force to achieve a 3 Day Production Program. This program ensures sign delivery in record time. Your order is produced and ready to ship just 3 days after order approval. That's the fastest production time in the industry!

CLEAR COAT & POWDER COAT

All of our eligible panel materials are finished with a protective clear coat to prevent fading, scratching, and peeling. All of our steel panels, frames, and posts are powder coated to protect against rust, and to provide a clean, professional appearance that agents can be proud of.

SUPERIOR PRODUCTS

Lowen offers a variety of materials to fit your needs: everything from temporary signage to complete steel units that will last you for years to come. All of our steel frames are welded here in Hutchinson, Kansas. All of our panels are cut and printed in-house. This allows us to oversee every aspect of quality from start to finish.

WE KNOW THAT REAL ESTATE SIGNAGE CAN BE AN INVESTMENT, SO WE SUPPLY PRODUCTS WORTH INVESTING IN.

We believe in our materials so much that we have a 3 year non-fade ink warranty on our steel panels and ensure no warping, chipping, or peeling on many other materials. We know that real estate signage can be an investment, so we supply products worth investing in.
